Subject: Lab Safety Coordinator Meeting

Hi all;

Just a reminder that our lab safety coordinator's meeting is this Wednesday at 9:30am in Draper 102.

This time we will be discussing;

- a) Recent incidents
- b) The new hazard communication standard GHS – aka SDS's vs MSDS's
- c) Alternatives to oil baths

As usual, please let me know if you cannot make it, but I would like you to make an effort to attend. Training for the GHS standard is being implemented this year and is important to everyone who handles chemicals of any kind.

Many thanks
Chris
